Ad-hoc Reporting

The following process for ad hoc reporting requests will be followed to assure all requirements are understood, documented, approved by the Program and completed to the Program's satisfaction:

- The Program will contact their WIC Account Manager to request the report.
- The ad hoc request document is created; the Program is contacted to confirm the scope. This document will also have the time to implement and costs associated. Solutran will have the ad hoc request document to the Program within two (2) working days of initial request.
- Once it has been approved by the Program, the ad hoc report will be created.
- Solutran will provide the ad hoc report to the Program within seven (7) working days.

Enhancement/Change Process

Solutran is committed to excellent customer service which means meeting the Program's needs. Solutran has an enhancement/change process that has been perfected over time. The following process will be followed to assure all requirements are understood, documented, approved by the Program and completed to the Program's satisfaction:

- The Program will contact their WIC Account Manager to request the enhancement.
- The Solutran WIC team will then review the request and create an enhancement scope. They will take into consideration any possible unintended consequences the change may create and communicate those consequences with the Program.
- The Solutran WIC team will review previous enhancements directly related to the SPIRIT program or from other WIC Programs to provide firsthand experience to the Arkansas WIC Authority and see if cost sharing between Programs is possible.
- After the enhancement functional document is created, the Program is contacted to confirm
 the scope. This document will also have the time to implement and any costs associated.
 Solutran will have the functional enhancement document to the Program within 20 days of
 initial request. If more time is needed, the WIC Account Manager will discuss the reasons for
 the need for more time.
- Once it has been approved by the Program, programming will begin.
- Depending on the scope of the enhancement, we will contact the Program with status updates.
- Upon completion of programming, testing is done multiple times. Any issues found at that time will be corrected and retested.
- The Program will be contacted upon completed testing and the implementation timeline will be confirmed.
- Solutran will move the enhancement to our operations platform on the date that is agreed upon.
- Solutran will follow up with the Program after implementation to assure that the enhancement is working as expected.

Report Delivery

Solutran's UPPS system automatically generates daily and monthly reports through an end of day or end of month process. These processes are triggered by a set of approvals done by Reconcilers as each step in the check processing is completed. Once all approvals have been accomplished, the system runs the final job that produces:

- Files
- Reports
- SOAR database updates

All daily and monthly jobs have to be run in a controlled timeframe so that production will flow smoothly and other WIC Programs will not be affected. We will provide all daily reports by 9:30 am each day and monthly reports by the 5th business day of a new month by 9:30 am.

Issue File Format

Purpose

This defines the issue file format transmitted by Arkansas Department of Health and received by Solutran for processing. The issue file contains checks: Newly Issued; Compliance Buys; Corrections to a previously issued item; Removal of a previously issued item; and Voiding of an already issued item).

Format

The file will be in the ASCII format. All fields in the record will be displayed (not packed).

Type:

N = Numeric, right justified zero filled

\$ = Amount, right justified zero filled last two positions assumed decimal

A = Alpha numeric, left justified space filled.

Records will be separated by a carriage return and/or line feed (hexadecimal codes: 0D0A) at the end of each record.

This file will contain one header record, followed by a variable number of detail records followed, by one trailer record. File will not be processed if trailer record is missing or calculated detail record count is different from the count from trailer record

Communication

Solutran has an FTP site that all files to and from Solutran will be placed. The address is: mpls.solutran.com or 64.73.137.138.

This site does not allow anonymous logins. You will be supplied with a user name and password. Upon connection go to "incoming" directory.

File Naming

The file name to be used is ISAKmmdd.nnn

Where:

IS = Literal IS for issued

AK = Assigned state Abbreviation "AK"

mm = Processing date, month value: Will be 01 through 12

dd = Processing date, day value: Will be 01 through 31

nnn = File number for the day. First file on the day will be 001, and second file on the same day will be 002. Sequence # for file sent for the day.

Example: If state is sending first issued file on 07/01/09, file would be named ISAK0701.001, second file for day would be named ISAK0701.002.

Note: File names are case sensitive. Also files are checked for formatting structure. If the file name is not as noted, or the formatting structure is different than the agreed upon structure noted below, Solutran can not guarantee that the file will be processed.

Frequency of File:

Arkansas does not allow the automatic end of day process to run out of SPIRIT. Arkansas (Bert Wells) performs a supplemental end of day process to generate all the Arkansas to Solutran files. The Issuance file is created from this supplemental process and sent first thing (6:30 a.m.) every weekday morning.

Timing

Issue files must be received by 4:00pm CT for same day processing. Files received after that time will not be processed until 4:00pm CT on the next business day.

Reporting

Solutran transmits a zip file RPTSmmdd.ZIP via a Solutran-hosted FTP site. The zip file contains the following reports after an issue file is processed. No report indicates that Solutran did not process an issue file. These reports should be available on the FTP site prior to 12 Midnight CST. Reports are to be reviewed by Arkansas Department of Health to determine action required to resolve any errors.

• WIC Issued Items Detail Report

Arkansas does not currently receive the detail report; however totals appear in the WIC Issue Errors Report identified in a section to follow.

• WIC Issued Items Errors and Totals Report

Example

WICISS Page 5853 5853 WIC ISSUE ERRORS REPORT 10/01/12 1 008040250062 WICISS

Report will list exceptions found on the program sent issuance (obligation) file. The file will process with these errors. It is the responsibility of the program to review the report daily to resolve issues identified in the message column

Arkansas Issue File Structure

Issue File Header Record

Column	Length	Туре	Description
01 – 03	03	Α	Record ID Value "IAA"
04 – 09	06	Α	From Machine value AK8888
10 – 15	06	Α	To Machine
16 – 23	08	N	File Date Format YYYYMMDD
24 – 33	10	Α	Filename Value "BI#####"
34 – 41	08	Α	Version ID

Issue File Detail Record

Column	Length	Type	Description
01 – 03	03	Α	Record ID value "IBA"
04 – 11	08	N	Check number
12 – 19	08	N	First Use Date, format: YYYYMMDD. First use date, is the day the checks are valid for use. Early cashing if cashed before this date.

20 -27	08	N	Last use Date, format: YYYYMMDD, State will provide last use date; SOLUTRAN will add 45 days to the last use date and use it for stale date editing.
28 – 28	01	A	Program Code 0 = WIC Item, 1 = FM item
29 – 29	01	Α	Pharmacy Indicator - Not used by Solutran
30 – 30	01	A	Compliance buy Indicator Y = Compliance Item. N = Not a Compliance Item.
31 – 35	05	N	Food Instrument Type Code. 00001 = FM Item. Other values will correspond to FI Type in the price file.

Issue File Trailer Record

Column	Length	Type	Description
01 – 03	03	Α	Literal value "IA9"
04 – 08	05	N	Total "IBA", Detail record count

Vendor File Format

Purpose

This defines the vendor file format transmitted by Arkansas Department of Health and received by Solutran for processing. The information includes information such as name, address, and ACH banking information.

Format

The file will be in the ASCII format. All fields in the record will be displayed (not packed).

Type:

N = Numeric, right justified zero filled

\$ = Amount, right justified zero filled last two positions assumed decimal

A = Alpha numeric, left justified space filled.

Records will be separated by a carriage return and/or line feed (hexadecimal codes: 0D0A) at the end of each record.

All fields in the record will be display (not packed). Numeric fields will be right justified zero filled. All unused fields should be either zero or space filled.

This file will contain detail records followed by one trailer record. The trailer record will contain a count of all the detail records.

The vendor file(s) will not be processed if: (1) The trailer record is missing or (2) The total count does not match the computed count. A report will be generated stating the error (See Appendix A for example).

Communication

Solutran has an FTP site that all files to and from Solutran will be placed. The address is: ftp "mpls.solutran.com or 64.73.137.138."

This site does not allow anonymous logins. You will be supplied with a user name and password. Upon connection go to "incoming" directory.

File Naming

Solutran requires that a complete vendor file be sent every time the state has updates to the vendors. File name for the Vendor Stamp File, as suggested by the state will be:**BSnnnnn.TXT**

BS = Static Characters

nnnnn = Sequential number generated by state.

.TXT = Static Characters.

(Sequential # currently 001285 as of October 2012)

File name for the Vendor Information file as suggested by state will be: BVnnnnn.TXT

BV = Static Characters.

nnnnn = Sequential number generated by state.

.TXT = Static Characters

(Sequential # for BV and BS files is currently 001285 as of October 2012)

Note: File names are case sensitive. Also files are checked for formatting structure. If the file name is not as noted, or the formatting structure is different than the agreed upon structure noted below, Solutran cannot guarantee that the file will be processed.

Frequency of File:

Arkansas does not allow the automatic end of day process to run out of SPIRIT. Arkansas (Bert Wells) performs a supplemental end of day process to generate all the Arkansas to Solutran files. The Vendor file is created from this supplemental process and sent first thing (6:30 a.m.) every weekday morning.

Timing

Vendor files must be received by 4:00pm CST for same day processing. Files received after that time will not be processed until 4:00pm CST on the next business day.

Reporting

Solutran transmits a zip file RPTSmmdd.zip via a Solutran-hosted FTP site. The zip file contains the following reports after a vendor file is processed. No report indicates that Solutran did not process a vendor file. These reports should be available on the FTP site prior to 12 Midnight CST. Reports are to be reviewed by Arkansas Department of Health to determine action required to resolve any errors.

• Vendor Load Report

Example

VDM001 Page 5802 5847 WIC VENDOR FILE LOAD

10/01/12

46 008040250021 VDM001

This report generates if the state sends a vendor file to the FTP site, and the vendor file is pulled in and applied to Solutran's system. Report details the vendor information, such as name, address, and ACH banking information, in an easy to read format. The program should validate the totals on the last page to assure Solutran added the correct number of vendors.

Some error messages that might be seen are, but **not** limited to:

- Warning: Class Code (Peer Group) is zero
- ACH Warning; a few common are illustrated below:
 - Invalid R&T Vendor ABA supplied within the vendor file is not a valid ABA in the banking channels and needs to be worked with the vendor to update information. When there is this error
 - Account Closed Vendor's bank account has been closed, and Program should work with the vendor to get updated information
 - Invalid Account Number Vendor's bank does not have the account given within the vendor file
 - Credit Entry Refused Vendor's bank refused the credit, and the vendor should be working with their bank.
 - No Account The bank does not have an account on file.

(ACH Warnings are critical to address, as these error messages will prevent ACH payments to go to these vendors)

*** END OF REPORT ***

Purpose	Responsible to review	Action Required	Who to contact
To ensure a file was processed by Solutran.		Look for the report within the Reports file on the FTP site. No report indicates that Solutran did not process a file. Contact wichelpdesk@solutran.com if no report is received and a file was sent to Solutran for Processing.	
The report details all the vendor information sent by the State.		The program should validate the totals on the last page to assure Solutran added the correct number of vendors. If any vendor is in error status, review the "Message" column on the report, correct the error, and send another vendor file the next evening.	

Arkansas Vendor Stamp File Structure

Vendor Stamp File Header Record

Vender Clamp The Treader Record				
Column	Length	Type	Description	
01 – 03	03	Α	Record ID value 'SAA'	
04 – 09	06	Α	From Machine ID value 'AK8888'.	
			AK = State Code	
10 - 15	06	Α	To Machine ID	
16 – 23	08	N	File date: Format YYYYMMDD	
24 – 33	10	Α	File name value 'BSnnnnnn '	
34 – 41	0	Α	Version number value blanks.	

Vendor Stamp File Detail Record

Column	Length	Туре	Description
01 – 03	03	Α	RECORD ID VALUE 'SBA'
04 – 09	06	N	VENDOR IDRight Justified zero filled i.e. 00300 This vendor stamp should have unique corresponding record in the vendor information file and will be used for combining both files in to one.
10 – 15	06	N	VENDOR Stamp This will be applied at SOLUTRAN as Vendor Nr.
16 – 23	08	N	Vendor EFFECTIVE DATE (YYYYMMDD)
24 – 31	08	N	Vendor DEACTIVATE DATE (YYYYMMDD)

Vendor Stamp File Control Record

Column	Length	Type	Description
01 – 03	03	A	Record ID value 'SA9' State to decide.

222 – 230	09	Α	ZIP CODE			

Vendor Information File Control Record

Column	Length	Туре	Description
01 – 03	03	Α	Record ID value 'VA9'
04 – 08	05	N	Record count of detail records.

Type File Format

Purpose

This defines the type file format transmitted by Arkansas Department of Health and received by Solutran for processing.

Format

The file will be in the ASCII format. All fields in the record will be displayed (not packed).

Type:

N = Numeric, right justified zero filled

\$ = Amount, right justified zero filled last two positions assumed decimal

A = Alpha numeric, left justified space filled.

Communication

Solutran has an FTP site that all files to and from Solutran will be placed. The address is: ftp "mpls.solutran.com or 64.73.137.138."

This site does not allow anonymous logins. You will be supplied with a user name and password. Upon connection go to "incoming" directory.

File Naming

The file name to be used is AKTYPE.DAT

Note: File names are case sensitive. Also files are checked for formatting structure. If the file name is not as noted, or the formatting structure is different than the agreed upon structure noted below, Solutran can not guarantee that the file will be processed.

Frequency of File:

Arkansas does not allow the automatic end of day process to run out of SPIRIT. Arkansas (Bert Wells) performs a supplemental end of day process to generate all the Arkansas to Solutran files. The Type file is created from this supplemental process and sent first thing (6:30 a.m.) every weekday morning.

Timing

Type files must be received by 4:00pm CST for same day processing. Files received after that time will not be processed until 4:00pm CST on the next business day.

Reporting

Solutran transmits a zip file RPTSmmdd.zip via a Solutran-hosted FTP site. The zip file contains the following reports after an issue file is processed. No report indicates that Solutran did not process a Type file. These reports should be available on the FTP site prior to 12 Midnight CST. Reports are to be reviewed by Arkansas Department of Health to determine action required to resolve any errors.

Type Load Report

Example

WICTYPE Page 3778 5801 WIC TYPE FILE LOAD

10/01/12 2,024 008040250020 WICTYPE

Report will list all type codes sent within the file. The file will process with some non-fatal errors. It is the responsibility of the program to review the report every day a file is sent for processing, to resolve issues identified in the message column.

* Type in report above also known as Food Type or Food Code.

Purpose	Responsible to review	Action Required	Who to contact
To ensure a file was processed by Solutran.		Look for the report within the Reports file on the FTP site. No report indicates that Solutran did not process a file. Contact wichelpdesk@solutran.com if no report is received and a file was sent to Solutran for Processing. The Vendor Unit verifies daily that the "WIC Type File Load" report is available. If the report is not available, the Vendor Unit contacts Solutran. Once the process has been finalized, Arkansas will be responsible for reviewing the "WIC Type File Load" report to determine 1) that the report available and 2) errors are corrected	
Report will list all type codes sent within the file. The file will process with some non-fatal errors.		All errors are at the top of the report. These errors need to be corrected and resubmitted, as they have not been applied to our system.	

Arkansas Type File Structure

Type File Header Record

Column	Length	Туре	Description
01 – 03	03	Α	Record ID Value "PAA"
04 – 09	06	Α	From Machine Value AK8888
10 – 15	06	Α	To Machine
16 – 23	08	N	File Date Format YYYYMMDD
24 – 33	10	Α	Filename Value "BP#####"
34 – 41	08	Α	Version ID

Type File Detail Record

Column	Length	Туре	Description
1 – 3	3	Α	Record ID Value "PBA"
4 – 5	2	N	Peer group, Value not exceed 18 peer groups for present.
6 – 10	5	N	Food Instrument Type Code.
11 – 16	6	N	Average Amount Format 9(04)V99, two assumed decimal. Will

			be used for creating auto ACH and applied as ACH amount.
18 – 22	6	N	Maximum amount FORMAT 9(04)V99, two assumed decimal.
			Maximum amount used for editing.

Type File Control Record

Column	Length	Туре	Description
1 – 3	3	Α	Record ID value "PA9"
4 – 8	5	N	Count of ("PBA") detail records. Format 9(06).

Paid File Format

Purpose

This defines the paid file formats transmitted to the Solutran FTP site by Solutran and received by Arkansas WIC for processing into their MIS system.

Format

The file will be in the ASCII format. All fields in the record will be displayed (not packed).

Type:

N = Numeric, right justified zero filled

\$ = Amount, right justified zero filled last two positions assumed decimal

A = Alpha numeric, left justified space filled.

Communication

Solutran has an FTP site that all files to and from Solutran will be placed. The address is: ftp "mpls.solutran.com or 64.73.137.138."

This site does not allow anonymous logins. You will be supplied with a user name and password. Upon connection, go to "outgoing" directory.

File Naming

Daily redemption file with file name, PDAKmmddyy.DAT (For date 01/31/07, file name would be PDAK013107.DAT) –

Where:

PDAK =Static characters:(PD for Paid, AK for Sate Abbreviation) mm=Processing date, month value: Will be 01 through 12

dd=Processing date, day value: Will be 01 through 31

yy = Processing year

.DAT=Static characters: DAT file extension.

Frequency of File:

Solutran will post WIC paid files daily to the designated FTP (t-arkwic) site if there is clearing volume with the following names.

PDAKmmddyy.DAT

Reporting

Solutran transmits a zip file RPTSmmdd.ZIP (daily) via a Solutran-hosted FTP site. The zip file contains all the state selected reports, which reflect the daily reconciliation of presentments. These reports should be available on the FTP site prior to 12 Midnight CST. Reports are to be reviewed by Arkansas Department of Health to determine action required to resolve any errors.

Paid File Header Record

Column	Length	Туре	Description
01 – 03	03	Α	Record ID Value "RAA"
04 – 09	06	Α	From Machine
10 – 15	06	Α	To Machine
16 – 23	08	N	File Date Format MMDDYYYY
24 – 33	10	Α	Filename Value "PDAK####"
34 – 41	08	Α	Version ID
42 – 42	01	Α	Program Code

Paid File Detail Record

Column Length Type Description

01 – 03	03	Α	Record ID Value 'RBA"
04 - 04	01	Α	Paid Indicator (Y/N)
05 – 12	08	N	Serial Number
13 – 20	08	N	Paid date Format MMDDYYYY
21 – 27	07	N	Paid or returned amount Format 9(05)99, last two digits assumed
			decimal.
28 – 35	08	N	Reject Date Format MMDDYYYY
36 – 36	01	Α	Reject reason Code.
			A = Missing Vendor #
			B = Invalid vendor
			D = Unreadable Vendor
			E = Missing 1 st Signature / Void
			F = Stale Date /Void
			G = Early cashing /Void
			I = Unreasonable Dollar/ Void (Over the max amt. ACH Will apply)
			J = Priced in Pencil /Void
			S = Stop Payment.
			W = 2 nd Presentment / Void
37 – 43	07	N	Presentment Amount Format 9(05)99, last two digits assumed decimal.
44 - 49	06	N	Vendor Stamp
50 – 50	01	Α	Program Code

Paid File Trailer Record

Column	Length	Туре	Description
01 – 03	03	Α	Record ID Value "RA9"
04 – 10	07	N	Total Count of detail (RBA) Records.
11 – 15	05	N	Totals Count of All records including header and trailer.
16 – 28	13	N	Total of presentment amount in file. Format 9(11)V99.
